Dear Dr. Demerec:

Thank you so much for the pictures; it was very generous of you to lend us your camera.

As a matter of fact, it is lucky ours was dropped. There was something wrong with the shutter even before then, and we had much better pictures after it was repaired.

I am sorry that I confused your roll with one of ours. We are sending you your pictures now (except one we want to copy ourselves) and will send another set of copies of some of ours we thought you'd be interested in.

With best regards,

Joshua Lederberg
